

2019-2020年

东莞理工学院外国留学生 —— 招生简章 ——

Dongguan University of Technology (DGUT) is the first full-time regular university in Dongguan, and is proud to have Dr. Chenning Yang, a Nobel Laureate in Physics, as our Honorary President. Work on establishing DGUT commenced in 1990, and it was finally established in April 1992. Under the authorization of the Ministry of Education, DGUT was approved as a full-time regular university in March 2002 and as a bachelor's degree awarding university in May 2006. In June 2010, DGUT was listed among the initial institutions for national "Outstanding Engineers Cultivation Project" along with 61 other universities, including Tsinghua University. At the same time, it was approved by Guangdong provincial government as a master's degree awarding university in August 2010. Furthermore, DGUT was listed as a key high-level science and engineering university construction unit in Guangdong Province, in September 2015. DGUT has risen to a level of "first-grade" local universities, and ranks No. 188 in Comprehensive Strength List of Chinese Universities for 2019, No. 73 among universities not included in "Double First-Class University Plan", and No. 65 among Chinese science and technology universities and colleges.

DGUT has two campuses at present—Songshan Lake Campus and Guancheng Campus, covering a total area of 2,340 mu (385.48 acres). DGUT has established an excellent teaching team consisting of more than 1,500 faculty members, including more than 160 faculty members with senior professional titles, more than 340 with associate professional titles, and more than 690 with a doctorate degree. DGUT has 20,338 full-time students and 13,566 adult education students. So far, DGUT has nurtured about 110,000 local talents. Libraries in the two campuses cover a total built-up area of 45,020 m², and have a collection of 2 million books, with 70 databases and 1.72 million e-books. DGUT has built a wireless campus network covering the entire campus, and has established more than 6,300 access points (APs).

Dongguan is a prefecture-level city in Guangdong Province, and a pioneer in the Guangdong-Hong Kong-Macao Greater Bay Area, which is a city agglomeration consisting of Hong Kong Special Administrative Region, Macao Special Administrative Region, and nine cities in Guangdong Province, including Guangzhou, Shenzhen, Dongguan, and others. It is an important platform for China to build a world-class city agglomeration and participate in global competition. It is located in the southern and central part of Guangdong, and northeast part of the Pearl River Delta, 50 km north from Guangzhou, 90 km south from Shenzhen, 47 nautical miles from Hong Kong, and 48 nautical miles from Macao. Dongguan connects Guangzhou and Hong Kong by land and through water.

Dongguan covers an area of 2,460 square kilometers, and has a population of 8.342 million. Dongguan features a subtropical climate, with plenty of sunshine and rain, and an average temperature of 22.30°C. It has won several honorary titles, such as “Cantonese Opera City”, “City of Music”, “City of Science and Technology”, “National Forest City”, “International Garden City”, “National Civilized City” and “National Basketball City”.

In December 2018, Dongguan ranked No. 24 in the List of Best Commercial Cities in Mainland China in 2018, No. 5 in the List of Best Prefecture-Level Cities in Mainland China in 2018, and No. 7 among 30 cities with best innovation ability. In January 2019, Dongguan was listed in “WFBA Top 50 Cities with Best Investment Potential in China”.

Education Modes for International Student

- 1、 Undergraduate education with bachelor's degree
- 2、 Language training
- 3、 Short-term Chinese language and culture project

【Undergraduate education with bachelor's degree】

Students who have completed teaching modules specified in the teaching plan and passed oral defense of their graduation thesis can obtain the diploma, and students who meet requirements for awarding bachelor's degree can obtain the bachelor's degree.

Type of the programs: full-time

Duration of the programs: Four years (IBDC 2 years + DGUT 2years)

【Language training】

There is no limit to the study term, and classes are arranged based on actual demand. Students will be divided into different classes according to their Chinese language level.

Schools (Departments or Divisions)	Specialties
School of Computer Science and Technology	Computer Science and Technology
School of Chemical Engineering and Energy Technology	Applied Chemistry
	Power Engineering
School of Electrical Engineering&Intelligentization	Electrical Information Engineering
	Communication Engineering
	Optoelectronic Engineering
School of Mechanical Engineering	Mechanical Design Manufacture and Automation
School of Environment and Civil Engineering	Environment Engineering
	Civil Engineering
School of Economics and Management	International Business(English-taught)
	Logistics Engineering
School of Liberal and Media	Chinese Language and Literature
International College	Chinese Language Training

Categories	Scholarship Description
JTBC scholarship	300000～600000 Yen per year
DGUT scholarship	DGUT International student scholarship, 10000-30000 RMB per year

【International student apartments】

Student apartments of different sizes and conditions are available. All apartments are furnished with independent toilet, bathroom and network terminal (room with air conditioner).
